## MANOR FIELDS - PHASE 1

In addition to building and renovating a number of luxury homes, G.S Jones & Sons is now working in partnership with Kingsmead Designs to develop Manor Fields, an 11-acre site just outside Washingborough in Lincolnshire.

The site will consist of 64 executive homes and will be developed over 9 phases. Each home will be unique and will combine a bespoke design with the usual high standard of craftsmanship and attention to detail.

The development is a long-term project running from 2017 to 2024, with approximately 9 homes being completed each year. Each bespoke home will be built with the company's trademark quality craftsmanship and attention to detail.

Established in 1966, G.S Jones & Sons has earned an unrivalled reputation for building and renovating executive homes in and around Heighington in Lincolnshire, where the company was founded more than 50 years ago. Over the last five decades, the family-run business has grown and expanded its services to include large residential developments, as well as individual properties. Now run by the next generation, the company's ethos remains the same as when it was founded: to strive for excellence and create homes of distinction by combining bespoke design and quality craftsmanship on every project.

Mundys have worked alongside G.S Jones & Sons over a number of years and have been involved with the marketing of a number of unique individual executive homes. Each home we have been lucky enough to be involved with has been built and constructed to the highest of standards and designed in a way to suit everyday family living.

# LOCATION

The Manor Fields Development is located within close proximity to the City of Lincoln. Lincoln is a Cathedral City and the County Town of Lincolnshire - one of the UK's largest Counties. Part of the East Midlands, Lincolnshire sits on the East coast of England, to the north of Norfolk and the south of Yorkshire - nestled between the Humber and The Wash.

Access to Lincoln is easier than you may think with the new A15 bypass opening in 2020, improving the access from Washingborough and the surrounding Villages to the City Centre. The A1 and A46 make the journey from the South and the Midlands by road quicker now than ever before. From the north and north west, the M180 connecting to the A15 make for a straightforward journey. There are regular train services in and out of the City and direct connections are provided by East Midlands Trains, Virgin Trains East Coast and Northern Rail which operate daily services from and to including London, Nottingham & Leicester.

The City of Lincoln offers a wealth of history and culture and has become a very popular destination for tourists. The Brayford Waterfront is England's oldest inland harbour and offers a great selection of eating, drinking and entertainment venues. The Lincoln University is situated in the heart of this beautiful City and is ranked 22nd overall in the UK in The Guardian University Guide 2019.
